## PROJECT EXPERIENCE

### BELLY, Full-stack health tracker application

- Created high-fidelity wireframes of application views and user flows using Figma
- Defined data model and set up PostgreSQL relational database with Sequelize as the ORM
- Crafted backend NodeJS/ExpressJS server and implemented auth logic and protected routes using JWT, BcryptJS
- Constructed UI components using ReactJS and custom CSS styling along with state management via ContextAPI and React hooks

## PROFESSIONAL EXPERIENCE

### Support Engineer

Jun 2021 – Present

ReadMe, San Francisco, CA

- Solved a high-profile security issue related to localization integration by restructuring the React components
- Improved SEO across all user sites through refactoring logic behind metadata insertion.
- Implemented custom UI component throughout codebase to ensure code flexibility and reuse
- Added feature for adjusting JWT-related settings to improve auth flow for Enterprise users.

### Platform Engineer

Mar 2021 – Jun 2021

Appen, Dallas, TX

- Provided valuable insights into data points by developing SQL queries for the customer base.
- Crafted customizations using CSS, Liquid, and JavaScript to help provide solutions for user implementations
- Investigated bug reports from both internal and external sources using browser developer tools and devised solutions

**Support Engineer**

April 2019 – Mar 2021

Real Geeks, Dallas, TX

- Developed a tool to streamline JSON code formatting, resulting in improved support team efficiency
- Implemented website customizations using CSS and JavaScript for clients
- Collaborated with cross-functional teams to roll out website templates and onboarding processes

**EDUCATION AND TRAINING****Hackbright Academy**, San Francisco, CA

Oct 2022 – Mar 2023

- Developed skills and knowledge across fundamentals of data structures, algorithms, testing, front-end, back-end, database, object-oriented programming using Javascript, HTML, NodeJS, Express, and SQL
- Designed and built REST APIs and servers using NodeJS and ExpressJS
- Implemented unit tests and automated tests with Jest and Selenium for various applications

**University of South Florida**, Tampa, FL

Aug 2007 - May 2011

*Bachelor of Science, Biomedical Studies*
